Much From A Little.

(Concluded.)

"Light a lamp, Harvey," said his wife, who watched him from the open door. "It saves matches wonderfully in a damp morning."

"I don't care for the matches. Didn't I tell you I wasn't going to have my mind narrowed by petty savings after this?"

"But really, Harvey, there are very few matches in the house, and if we are going to be snow-bound we must be prudent till the roads are open."

"Just so, my dear. There goes the last one in the box, and I don't grudge it a particle, for I think I have started a fire at last."

Just then a wild blast swept down the chimney, rushed through the stove-pipe and out at the open door, puffing smoke and cinders in the good humored face of the speaker. Then the wind died with a sigh and the new-born fire died with it. Granger turned toward his wife with a look of comic despair.

"Tell me where to find another match and I'll light a lamp, ma'am," said he meekly.

"There are a few left in the parlor."

"Never a match, my dear. There was but one card last night, and I happened to drop it in the stove after the fire was kindled."

"Then I don't believe there is one left in the house." Lucy rose as he said this; and throwing a shawl over her night-dress, joined her husband in searching in every possible and impossible place. In vain.

"This is no joke," said Harvey, at last. "We are indeed a matchless pair. Get back to your nest, while I look up something edible and then start for the station. What's the bill of fare for breakfast? Here are several coveted dishes."

"This is baking-day," replied Lucy, ruefully. "There are beans in soak for dinner, and batter stirred up for buckwheat cakes, and a bowl of yeast to raise the bread; and really that's about all."

"Well, you can't eat raw beans, or buckwheat batter, and I beg you to let the yeast alone, as I don't want you to rise. There must be something more on hand."

"There is nothing in the house, Harvey, except a few fragments under a napkin in the pantry, hardly enough for the children."

She was quite right. The entire stock of edibles in the ménage was barely sufficient for the two young mouths now ready for it. Mr. Granger divided the food between the children, bade them get into their mother's bed for warmth and society, and then, protected by overcoat and gloves and armed with a wooden shovel, he set out to break his way to the station. The distance was a quarter of a mile, and he bade his wife feel no surprise if he did not return in an hour. The mother told stories and the children thought it great fun, asking with a touch of their father's humor, if that was the way rich folks always lived. At length when the hour was fully expired, the boy, wrapped in his mother's shawl, went to look for the good man's return. He was just in time. Granger was at the door, changed almost beyond recognition. Covered from head to foot with snow, partially frozen and wholly exhausted, he reeled as he entered and caught at the stair-railing for support. They were all around him in a moment, but he waved them back to their rest, assuring them he would be all right when he recovered breath. Then he shook the snow from his clothing and sat down upon the stairs.

"We are surrounded by impassable drifts, said he." "I didn't get more than a dozen rods, and when I found I must come back, my tracks were filled and I had to cut my way anew."

The coldness of the house was in his favor. His stiffened ears and fingers changed slowly from white to read and from torpor to a burning glow. But the faintness was that of hunger as well as fatigue.

"Have we any stimulants in the house?" he asked, desperately.

"Nothing but camphor," was the reply.

"I don't know about taking camphor and cold water upon an empty stomache. I think I could swallow a raw egg, if one could be found."

"I wish we had dozens of them, but we are quite out. I have been waiting till they were cheaper."

"Ah, Lucy, your economy is likely to be my death," pleaded Harvey, who would have been humorous *in extremis.*

Lucy thought, "It is rather your want of economy."

At dinner-time Harvey emptied a bottle of tomato catsup, and Lucy and the children chewed a quantity of cracked wheat, with manifest relief. They then got up a blood red flag, made from an old curtain, which rigged at half mast, was displayed from the window as a signal of distress. It was seen and commented upon, but all the available muscle of the little roadside was a mile away upon the snow-plow, making effort to clear the railroad track, and there were none who could come to the rescue. The early twilight began to fall, and the children, having supped frugally upon mixture of sugar and ginger, moistened with water, (what their father called gingerbread with the bread left out,) had taken refuge in sleep. Granger sat down in the parlor to consider the situation and be out of hearing of his wife's cough.

How long was this snow blockade to last? Would his neighbors come to his relief to-morrow, or would they think it their duty to clear the railway first? Would it be possible to break a road through the drifts before the wind went down? The distance was not great in length, but in depth it was appalling. It was computed not in lineal but cubic mesure and growing more so at that. Their supplies for the siege were meat and vegetables and a stock of meal and flour; these might sustain life for some time, but surely not health in one so frail as Mrs Granger. She had some tendency to consumption. Would it not in this interval be fatally confirmed? Granger had been right in saying earlier that their condition was no joke, but his brain turned with half-comical images, productive of a ghastly glee. "I don't wonder," he soliloquized, "that soldiers are urged to strike for their altars and their fires. I would fight with an Irishman for the coal in his pipe." He rose and walked up and down the room with hasty strides, but, turn which way he would the same facts stared him in the face. He thought he had exhausted possibilities; but a faint one occurred to him, and he tested it less in hope than despair.

Suddenly he looked in upon his wife, his face lighted with a glow of joy. "I have better news to tell you than I had last night," he said in suppressed but jubilant tones.

"What is it? Have you found a match?

"No bed what is better, a pile of hot cocks. That purple fog, bless its obdurate heart—is all silver under white ashes in the parlor stove."

"Is it possible? I never knew that stove to keep fire before; but then it has not often been tried."

"Well, you know the dumper is rather loose and the wind closed it last night."

"Yes and I shut the register in front."

"You did, you did, Lucy, and that bit of coal may has saved us more than I can guess. I'll forgive you everything after this."

By ten minutes fires were roaring in parlor and kitchen, and in another ten coffee simmered and cakes grew brown. The cloth was laid and the lamps lighted, but before rousing the children to their unlooked for supper, Granger detained his wife to say to her: "I dont intend to let you do all the moralizing. I am not so dull that I can't take a lesson from what has happened. I admit the importance of little things. Rich or poor we cannot afford to be wasteful."

The glow of gratitude brought back the youth to Lucy's face. "Oh, Harvey, I am delighted!" she said fervently. "Now I hope we may be able to keep your grandfather's fortune. But for this experience, it was only a question of time."

NEWPORT DAILY NEWS.

WEDNESDAY, April 8, 1868.

FOR PRESIDENT,

ULYSSES S. GRANT.

STATE OF RHODE ISLAND, &c.
ADJUTANT GENERAL'S OFFICE,
Providence, April 6, 1868.

General Orders, No. 2:

I. No vouchers will be approved by the Governor, or paid by the State Treasurer, for expenditures incurred on account of the militia, not in strict accordance with law.

For the past few years, rations for men, forage for horses, pay for labor of armorers cleaning arms, equipments and harness, and other like expenditures not authorized by the letter of the law, have been paid with the understanding that the law requiring the organization and parading of troops four days in the year, authorized by implication the making of such expenditures as were necessary to carry out the same. In future such accounts will not be approved, and in no case can more than the sum prescribed by law be paid for the use of horses for batteries, mounted officers and men.

II. No ammunition will be purchased by the Quartermaster General or issued to the troops except upon requisition of commanding officers approved by the Governor.

Each requisition must bear upon its face the certificate of such officer that the same is in accordance with law.

III. In no case will any purchase be made of arms, equipments or clothing; the law requiring such expenditures to be made only under direction of the General Assembly.

A strict observance of this order is enjoined upon all the officers of the State, and any unauthorized expenditures incurred in order to the execution of the special act passed at the last January session of the General Assembly, requiring two days' parade, must be at the risk of the several commands.

IV. All requisitions and bills on account of the Militia will be sent to the Adjutant General for the approval of the Governor.

V. Section 3, Chapter 225, of the Revised Statutes, requiring certain bonds to be given by company officers for the safe keeping and return of arms, equipments, &c., not having in years past been observed, a strict compliance with the provisions of the same will in future be required.

The Quartermaster General will furnish the several commandants with blank bonds, which must be filled, signed and returned to him.

By order of His Excellency,

A. E. BURNSIDE,
Governor and Commander-in-Chief.

EDWARD MACOMB, Adj. Gen.

Business.

The reports from all parts of the country show a revival of business scarcely to have been expected under present circumstances. The dry goods trade in New York is represented as very brisk and prices are steadily advancing. Manufacturing interests are reviving and becoming more and more remunerative in all departments, and the tone of public feeling is everywhere encouraging. The farmers of the west have made the most of the late favorable weather and are preparing an immense breadth of ground for seed. The reports of the wheat crops are all that can be desired, and everything considered the American people have occasion for congratulation and thanksgiving. When the question of impeachment shall have been decided and the country allowed to become settled down as fully as is possible at a period so near the presidential election, we predict a season of unparalelled prosperity throughout the whole land. It is every man's duty to encourage this feeling of security, and so far as possible aid in giving a healthy tone to society. The signs of the times are propitious and none but croakers will seek to disturb the good feeling that is becoming established in the minds of the people. Even politicians who are always getting up a crisis and representing the country as in eminent peril will have hard work to convince the masses that the times are as bad as they represent. Considering the fact that we have just emerged from a most terrible civil war, with many of the questions raised still unsettled, it is a wonder that business is as buoyant, and the prospect so good as that before us. If there ever was a nation that ought to be thankful and happy, it is ours, and if there was ever a time when we should acknowledge the hand of God in our history, it is the present.

Congress.

Resolutions of the Minnesota, Legislature indorsing the action of Congress on the Impeachment question, were laid before the Senate yesterday and tabled. After some discussion the bill to refund the custom duties paid under protest on a bill imported from France and donated to a Catholic educational institution in Indiana, was agreed to. The amendment to the Naval Appropriation bill, which authorizes the employment in the navy of 1,250 apprentices and boys, gave rise to considerable debate. Several amendments were discussed, and finally one was adopted fixing the naval force at about what it was before the war, viz.:—7,500 able bodied seamen, exclusive of apprentices. An amendment was adopted directing that the unexpended balance of the naval appropriation remaining on the 1st of July be carried to the surplus fund. The bill was finally agreed to in Committee of the Whole, was reported to the Senate, but no definite action was taken on it when the Senate adjourned.

There was no session of the House yesterday, that body having adjourned to Wednesday.

Fifty-seven vessels are among the Bahama Islands collecting sponge for use in upholstery.

Humbug Advertising.

Geo. P. Rowell and Co's Advertiser's Gazette contains a spicy and valuable article on advertising adventures, made up chiefly of the experience of a victim which is, probably, not altogether unlike that of some of our readers. This gentleman took to answering the flash and fancy advertisements which appear from time to time, by which somebody proposes to make every body rich or happy at a very small expense. He begins by writing a letter.

LOWN ESQ.

He says:—Feeling that a lack of profitable employment kept many of my young friends in the way of that celebrated Satanic personage who "always finds something for idle hands to do," I sent five dollars to some philosopher in Maine who was willing to communicate a method of making an easy livelihood to all young men of enterprising habits possessed of a V. Back came a buck by return of post. The volume was labelled "Typographia." On opening it a slip of paper was found inserted between the title page and the blank leaves, and on the slip was written:

"You may be either a type-setter, a proof-reader, or a foreman, by reading this book. It contains all the necessary information. You only require a little practice, which you can gain by hiring yourself out for a year or two to any respectable printer. E. E."

By no means disheartened at this he next tried,

HARTFORD,

who relived a gentleman who was ready to give information necessary to make a man rich in the quickest possible time. The answer was "peddle cigars, half Havana, and half Lome-made, as I did, and be always ready to pick up a stray chicken."

WIFE HUNTING.

My curiosity, he continues, was next excited by an advertisement setting forth that for one dollar the likeness of my "future wife or husband" would be sent. I consulted with half-a dozen bachelor friends on the subject, and we unanimously resolved to invest one dollar each for the immense privilege of seeing the individuals who were to be our partners in this "vale of tears," and who were to double our blessedness by sharing our singularities. It was understood that each was to exhibit the likeness of his predicted bride for the inspection of the company, be she fair or unfair. In due time I received a circular visite through the post-office. It bore on its face the representation of a female form, got up in the hight of the latest fashion, regardless of expense. A splendid ostrich feather crowned what, from its magnificence and my ignorance, I will venture to designate an "empire" hat. A velvet cloak trimmed with lace, was surmounted with a superb fur cape. A robe of black silk was ornamented with numerous devices that might have found their origin in the brains of a kaleiposcope. A foot, or scarce half a foot, peeped out from under a white skirt, revealed by the dress being slightly raised. One tiny, tightly gloved hand was just visible. The face—but there was the trouble, it was a back view—and it might as well have been taken from a dry goods-man's "dummy" as from human form divine, so far as the "likeness" conveyed any idea to my mind. This was keeping the word of promise to the ear and breaking it to the hope with a vengeance. I felt inclined to tear the thing up, but, remembering my promise to my friends, I forbore. I found afterward that we were all served alike. We have this consolation, however, that our wives are to be fashionably dressed; that is, if the present fashion miscarriage continues till we are married.

PROTECTION AGAINST COLD.

I saw lately a paragraph intimating that to an anxious inquirer the advertiser of a receipt for the prevention of the freezing of cisterns or wells had answered with this twenty-five cents worth of advice:

"Take your cistern and well into the house on cold nights and keep up a good fire."

Cheeky enough, but no worse than the advice I paid a dollar for to the advertiser who offered a remedy for frost bitten feet and chapped hands, and which advice was embraced in three words, almost Shakespearian, "Go to Cuba."

GIFT ENTERPRISES.

The writer does not detail his experience with gift enterprises, if he had any, but we know of some people that might furnish an interesting chapter and vouch for every word of it as true. For instance, we hear of one of our leading business men who sent on the ready a few week's since for a splendid gold time piece which he had drawn, and received a paper sun dial with a gilt band around it, and several other cases of like nature. Thousands of dollars have been drawn from our city, mostly from the pockets of the poorer classes within the past few years. And yet others are ready to try the experiment and throw away their money in the same manner.

In this age advertising has become a power and no live man thinks of building up and maintaining trade without its advantages: All classes are benefited by it, but like all other good things it can be pressed to evil purposes as well as good. We should say, when a man advertises a legitimate business in a legitimate way, give him the preference—when a man proposes an evident swindle let him alone.

GEORGIA.—Gen. Meade has directed the arrest of all persons who may hereafter print or circulate incendiary documents, and announces that conductors of newspapers will be brought to trial before a military commission for the publication of articles intended or calculated to excite riot and bloodshed. This order is understood to have been provoked by the "Ku-Klux Klan." Gen. Sheppard, commanding the sub-district of Alabama, has issued an order of substantially the same nature, and civil and military officers are directed to use the utmost vigilance in detecting the agents of the "Klan."

About Home.

—o—

City Council.

The regular monthly meeting of the city council was held at the city hall last evening. For some reason there was not a very full attendance though after a little delay a quorum gathered and proceeded to business.

A considerable amount of business was transacted the principal items of which are as follows:

A Resolution passed both branches to purchase a steam engine and crusher for crushing stone for the streets and highways providing the expense of the same does not exceed $3000.

The Committee on city property were instructed to let at public auction or otherwise, the bathing privilege at Easton's beach for the ensuing year.

An appropriation of $100 was made for the use of the small engine companies for the present quarter.

The Harbor Master (B. W. Pearce Esq.) made his quarterly report which shows that fees have been collected to the amount of $62.00 one half of which goes into the city Treasury.

A resolution was passed accepting Ray street from Mann Avenue to R. I. Avenue and making it a public highway, provided the proprietors execute a deed satisfactory to the city solicitor.

The committee on highways were authorized to repair the plank walk on Warner street.

A petition for the improvement of Brinley and Howard streets, was referred to the proper committee; also a petition for a cross walk at the head of Bowen's wharf. It was also voted to accept the proposition to take gravel from the shores of Alfred Smith and R. C. Kennedy for the purpose of gravelling Bellevue Avenue.

Taxes illegally assessed against G. L. Shephard in the sum of $38.25 and Patrick Carrol in the sum of $7.65 were remitted.

The City Treasurer was directed to pay J. F. E sex fifty dollars in full, for damage done to premises of said Essex by reason of a sewer on Fair street.

The Finance committee made their usual report recommending the payment of numerous bills, which was adopted and approved.

CAPTAIN MASON BARNEY.—Captain Barney of Barneyville whose death we recently announced was at one time one of our most famous ship builders. He built and launched over a hundred vessels which bore testimony to his skill in every foreign clime. He was a man of uncommon activity and energy, and never seemed to suffer from disease and pain, like ordinary mortals. Although 86 years old at the time of his death, he was still active and cheerful; and on the three days preceding his death visited Providence, Fall River and Bristol. Last Wednesday evening he worked until a late hour mending a net, and when he was ready to go to bed called his housekeeper and told her to bring him some water; the water was brought, he drank it and ordered some more to be placed upon the stand by his bed for use during the night. The housekeeper again went for water, and when she returned, found Mr. Barney lying upon the bed; she said to him, "Here is your water." He made no answer, and taking him by the arm to attract his attention, she found that during her absence he had died apparently without a struggle.

GREAT CROWING.—The Boston *Post* brings out eight roosters to crow over the Connecticut election. If it takes eight such lusking animals to celebrate the issue of an election where the Democrats simply held their own in the re-election of a Governor, and on the other hand lost a United States senator, how many would it have taken had the whole State gone Democratic. The fact is these roosters were bought by the proprietors of the *Post*, to crow over New Hampshire and having failed them, are now in use of now as a sort of necessity, as this is doubtless esteemed the last chance. In such an emergency small favors are thankfully received.

Mr. John Menage of New Bedford, who had his foot crushed by a railroad train at Mansfield last week, died on Saturday, the operation of amputation proving too great a shock for his system to bear.

Mr. Menage is well known to many of our citizens, he having lived here some years ago. His father used to carry on the confectionery business in the store now occupied by Mr. Stephen Hammett.

HIGH TIDE.—The tide last evening was unusually high coming up upon several of the wharves in the city and doing some damage by washing away movables and wetting things generally. It is a long time since it has been so high before.

A well-known assessor of this city lately entered a drug store to procure some wash for his eyes, which were badly inflamed. While there, a business man took him to task for his heavy assessment of taxes. Turning from him to the apothecary, the assessor asked, "What do you think is the matter of my eyes?" "Well," said the waggish druggist, "I am afraid you over tax them." The bystanders appeared to consider this a call to mirth, in which they accordingly indulged.

THE STEP.—Our citizens were lulled to sleep last night by the roar of the surf which was unusually heavy. We are informed that the breakers were heard at Fall River and even beyond, about the time the storm subsided.

THE SNOW.—The snow fell here yesterday about three inches deep. At Concord N. H. it was about twelve inches. The storm seems to have extended over all New England and New York.

RECOGNIZED.—The name of the man killed at Attleboro on Thursday night by the Shore Line train is ascertained to be Robinson. He was a weaver at Hebronville, and an Englishman.

REAL ESTATE.—The heirs of the late Charles F. Pond have sold the Pond estate in this city to E. S. Willing of Philadelphia for $40,000.

AUCTION SALE!—The auction sale of Crockery, China, French Clocks and Sheffield Electro-plate, will be continued to-day "in spite of wind and weather," and every afternoon and evening at 2 and 7 o'clock, until the whole stock is sold. Remember! this fact,—seats are reserved for Ladies.—There is no reserve for anything else.

The Ku Klux Outrages.

Special dispatches from the South show an alarming state of things in the strong holds of the late rebellion.

The news from Georgia of the operations of secret organized gangs of rebel desperadoes, known as the Ku Klux Klan, is of a startling character. The reports of the cold-blooded murder of Dr. Ashburn, one of the original, steadfast and most prominent Southern loyalists, are fully confirmed by official advices received at Gen. Grant's headquarters, with the addition that two other prominent Union men, members of the late Convention, are missing and are supposed to have shared a like fate.

The Union people of Muscogee County, where the tragedy occurred, are in a state of horrible suspense, as they feel that they are all marked by these villains, and they are appealing to the military authorities for aid. The gang who murdered Dr. Ashburn at Columbus were about thirty in number and were disguised as ghosts. They affected all manner of spectral devices, with the idea of striking terror into the minds of freedmen, who are naturally superstitious in such matters.

A prominent Union man in Columbus, writing to headquarters, giving an account of the outrages, says: The result will be and no doubt it is one of their objects, to drive freedmen from the polls in the coming election, through fear, unless there is a military force at every precinct in the State.

Many rebel papers of Georgia and Alabama have not hesitated to openly encourage these organizations.

ASSASSINATION OF T. D'ARCY MCGEE.—At half past two o'clock Tuesday the Hon. D'Arcy McGee was shot at Ottawa in Canada by an unknown assassin, as he was entering the house of Mrs. Trotter, where he lodged on Spark street. The ball passed through his head and lodged in the door which Mr. McGee was in the act of opening. A son of Mrs. Trotter, who is one of the Parliament pages, was returning home and was some distance from the house when he heard the shot. On reaching his mother's door he found Mr. McGee dead on the pavement. He saw no person in the neighborhood and heard no footsteps. The night was clear, and the assassin must have been either concealed behind the fence of a vacant lot opposite, or made very hasty retreat immediately on firing the shot.

An evening paper has the following particulars of the assassination: He was returning from Parliament in company with other members. The assassin was so close that the hair of McGee burned. It is supposed that the assassin is from New York, and every avenue of escape to that city is guarded. Some say the assassination is the work of Fenians, of whom McGee was a bitter enemy. The Irish are very cool about the matter.

There is a talk of another move on the border by Fenians.

RUNNING MEETING AT NARRAGANSETT PARK.—A GRAND PROGRAMME AND LIBERAL PURSES.—The management of Narragansett Park, agreeably to their promise of last season, made at the brilliant trotting match held in the autumn, have advised that there will be a running meeting there during the days of July 14, 15 and 16 next. The purses offered are very liberal, and the time most opportune, as it falls between the summer meeting of Jerome Park and the yearly meeting at Saratoga. There will be three races each day, of such variety as to please alike the owners of the highly metalled steeds that will visit there and the thousands that will spontaneously gather to do the occasion honor. The brilliancy and enthusiasm incident to this meeting it is presumed will not be eclipsed by any similar gathering during the coming season.

DICKENS.—An amusing incident occurred when Mr. Dickens was returning to Boston last week from his visit to Portland. A little girl about eleven years old, whose parents reside in Hollis, Me., was on board the train. Upon being informed that she was riding in the same car with Dickens, she evinced the most intense curiosity, and wanted to pay respects, and a good opportunity offering soon after, she was permitted to do so. Dickens received his little admirer on this occasion with great cordiality. She was pleased to express her approval of his writings in flattering terms, saying, "I have read all your works, and like them very much." "Ah,' said Dickens pleasantly, "permit me to inquire which you like best?" "David Copperfield," promptly answered the little girl. "Good, good," exclaimed Dickens, "so do I." The interview was somewhat prolonged and seemed eminently satisfactory to both parties.

A LARGE WHEEL.—A gear wheel, over sixty feet in circumference, and weighing thirty-four tons in the rough, is being manufactured at the Foundry Machine Co's works, Taunton, for the American Print works in Fall River.

The quarrel between Black and Seward is very bitter. Black is so angry that he acquiesces in the removal of the President with little trouble.

ANOTHER FOOL.—A Chicago man intends to visit Europe this summer, sailing all the way from that city to Liverpool in a boat twenty-four feet long, and accompanied only by his dog. There ought to be some interference to protect the dog's life.

Providence.

The police have recently made several successful raids on unlicensed liquor shops.

The Narragansett Park races are to come off early in July and preparations are made for a great show. It is expected that the best horses in the country will be present.

Philip Phillips the most popular singer in this country gave a concert in behalf of the Mathewson street church, Monday evening. It was a great success, as all his concerts are.

SENATOR SPRAGUE.—The special correspondent of the Boston Advertiser says:—Senator Sprague is engaged in a lawsuit with his late gardener, who brings action against him for alleged debt. The Senator's counsel today filed a motion to dismiss the suit on account of Mr. Sprague's privilege as member of Congress. The matter is notable as being the first instance for many years that the congressional privilege has been in the courts of the district.

THE DRAW OF RED BRIDGE CARRIED AWAY.—This morning a tug boat and two schooners were passing through Red Bridge Providence, when the last schooner struck, carrying away the draw. Travel will probably be suspended over the bridge for one time. This bridge seems very unfortunate, to say the least. *Press.*

RICHMOND.—There being no election in this town of Senator and Representative on the 1st inst., an election took place yesterday, which resulted in the election of the Republican candidates by a majority of forty. James F. Harris is re-elected Senator and Wanton Lillibridge is re-elected to the House.

The song, "Tramp, tramp, tramp," was composed by a prisoner confined in the Iowa Penitentiary, and was first written on the walls of his cell with charcoal. It has netted the publishers thousands of dollars, but not one cent to the writer.

A Western paper says that the editor of its rival sheet was skating recently and broke through the ice. He went in up to his ears, but the hole was not large enough to let him through. While he was waiting for some one to take him out his ears froze, and they have since been amputated, and are used for door-mats.

COAL.—The coal dealers of Boston have reduced the price of the best coal to eight dollars, and not size to six dollars fifty cents per ton.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced two-fold by scientific and judicious combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in

Dr. Wistar's Balsam of Wild Cherry,

whose value in curing *Coughs, Colds, Bronchitis, Whooping Cough, Croup, Asthma, Pulmonary Affections, and Incipient Consumption* is unestimable.

Strong Testimony.

From BENJAMIN WARREN, Esq., Depot Master at South Boylston, Mass.

"In the spring of 1858 I was most severely afflicted with a hard, dry cough, with its usual accompaniments of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hopes of ever recovering, as I told also my friends. At the stage of matters I was prevailed upon through the influence of a neighbor to try Wistar's Balsam of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night sweats ceased me, hope once more cheered my depressed spirits, and soon I had attained my wonted strength and vigor. This was this fall two years, so that I can remember by personal experience with the above facts. Really satisfied me from the yawning grave.—You are at liberty to use this for the benefit of the afflicted."

NOTICE

To Housekeepers.

Save Your Carpets—Economy is Wealth.

NO process will cleanse carpets so thoroughly, and without injury, as *Washing* by the *Newport Laundry.*

It removes all sand and grit, restores the colors discolored by dirt, and gives it a bright, new appearance, and, unless faded, will make the carpets look like new.

You need not beat them; carpets which will not bear *beating*, will wash without injury at the Newport Laundry.

Roll up your carpets as you take them off the floor, leave your order at W. S. N. ALLAN'S, No. 18 Washington Square, and the wagon will call for, and deliver them at your door, at Five Cents per Yard.

Also Blankets, Bedquilts, Counterpanes, Lace, Muslin and Holland Curtains, finished equal to any establishment in the large cities, and at much less cost. WM. K. COVELL, Jr.

TELEGRAMS.

BY THE CUBAN CABLE.

NEW YORK, April 7

Special telegrams from Mexico state that the British steamer Danube, which was engaged in smuggling on her last trip, had arrived again off Vera Cruz but did not enter the port, sending her mails ashore in a small boat under a white flag.

—o—

BALTIMORE, April 7.

The Marshal of Police yesterday received information from Deals' Island, Dorchester County, Md., that Captain Johnson of the schooner Brave, and a man named Cannon, had been killed and thrown overboard—It is supposed by four negroes, who were shipped in Baltimore. After the murder the vessel was run ashore at Cayes Straits, Somerset County, and the negroes left in a small boat, taking the captain's clothing and about five hundred dollars in money. They are believed to have come to Baltimore or Washington, and efforts are being made to arrest them.

—o—

Mr. Ashburn, who was recently assassinated at Columbus, Ga., was the leader of the Republican party in that section. The Columbus *Sun*, an incendiary sheet, gloat over the foul murder.

—o—

The *Tribune's* Washington special says that advices received there say the republican majority in Arkansas is 2063, with three republican counties to hear from.

—o—

NEW YORK, April 7.

Returns from seventy towns in Michigan show a majority against the Constitution.

—o—

THE RIOT AT COALFIELD.

NEW YORK, April 7.—The *World* has the following from Richmond: The riot at Coalfield has been quelled without the shedding of much blood. Major Brown, who visited the scene, thinks the blacks are to blame, and reports them to be in an excited state. They chased a white man a long distance and frightened him nearly to death with threats of hanging. Four ringleaders of a desperate character were lodged in Libby to night.

WISCONSIN ELECTION.

MILWAUKEE, April 7.—Returns received up to 11 o'clock to night indicate the election of L. S. Dixon (Republican) for Chief Justice, and Byron Paine (Republican) for Associate Justice, by between 3000 and 4000 majority. Milwaukee gives the Democrats 2500.

GERMANY.

BREMEN, April 7.

The tide of emigration for the present Spring for the United States has commenced with increased volume. It is estimated that upwards of 7000 emigrants left Germany during the past week for American ports.

—o—

ITALY.

FLORENCE, April 7.

Admiral Farragut has gone from Naples to Sicily. A despatch from Messina announces his arrival at that port.

—o—

SOUTH AMERICA.

LONDON, April, 7.

Three days later dates have been received from Montevideo, via Rio Janeiro. The report of the assassination of Gen. Flores, President of Uruguay, is contradicted. He was murdered in Montevideo shortly after his return from the allied camp, on the Rio-Parana. His successor had taken his seat without opposition, and the city and State remained tranquil notwithstanding the alarming event.

boldly asserts (and it cannot be contradicted, except by quacks, who will do so to any startling, even perjure themselves, to injure upon patients) that he

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through a long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

Is not robbed and held down underfoot in being deceived by the lying boasts, or pre-tentions, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and care so to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, low obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further the imposition assume names of other most celebrated Physicians long since dead. Neither are derived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their excellence—by one or two, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ascendant belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., to the Nostrum Maker, equally ignorant, adds to the so-called Extracts, Specifics, Antidotes, &c., both relying upon its effects by curing a few in a hundred, it is suspected in various ways throughout the land; but, alas! nothing is said of the hundreds, some of whom die, others grow worse, and are left to linger and suffer for months or years, until reduced or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will go into themselves, contradicting, giving as many to their patients or that it is contained in their Nostrums, so that the "round lie" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife. The perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an ornamental top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine the "Peerless stove." Sole agent in Newport,

Oxygenized Air,

A CURE FOR

CATARRH

AND DISEASES OF THE THROAT AND LUNGS,

Applied by

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day whose suffering from Catarrh is such an extent, that the Air Passages in the head are in a partly decomposed condition, the nose and throat filled with such masses of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is invariably caused by humoral or inflammatory blood, by which the mucous membrane is made sore or thickened, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the Bronchial into the air vesicles, and such is the excoriating, or scalding property of the matter, its contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a description of these diseases.

Out of the many thousands of testimonials received we publish the following:

Dr. C. L. Blood,—

DEAR SIR,—I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections.

Fraternally yours,

L. M. LEE, M. D.

No. 129 Westminster Street, Providence.

Dr. C. L. Blood,—

MY DEAR SIR,—I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,

Rev. B. TOMLINSON,

PRICE ADVANCED—PAR & INTEREST

THE

Central Pacific Railroad

THE BEST AND PRINCIPAL PORTION OF THE

National Trunk Line Across the Continent

is being rapidly pushed forward by an unprecedented working force; and it is reasonably certain that the CONTINUOUS OVERLAND RAILROAD CONNECTION FROM NEW YORK TO SAN FRANCISCO WILL BE MADE IN 1870.

The United States Government furnishes, upon a well-ordained and contingent law, half the means for constructing the Main Stem Line; and besides an absolute grant of 12,800 acres of valuable public lands per mile, the Central Pacific Railroad Company have received from California sources, donations and concessions worth more than $3,000,000. The available resources of this Company are therefore abundant for the purpose, amounting to $27,000,000 on the first 700 miles of the Line, including Loans secured by a First Mortgage upon the whole property, to the same amount only as the U. S. Subsidy Bonds.

The results thus far attained, although in the comparatively difficult circumstances, afford substantial ground for believing the CENTRAL PACIFIC to be the

Most Favored, Productive, and Valuable Railroad Enterprise in the Country.

In consequence of the large and rapidly increasing demand, the price of these Bonds has been advanced, and the Company are now offering for sale, a limited amount of their

First Mortgage Six Per Cent. Bonds,

Principal and Interest Payable in Gold Coin,

in sums of $1,000 each, at par and accrued interest from January 1st, in currency.

These Bonds, it is believed, possess the elements of *safety, reliability and profit*, in a greater degree, than any other class of Corporate Securities now offered, and are therefore very desirable for steady investment of capital.

Investors will bear in mind the following points:

I. They are the first mortgage on one of the most valuable and productive lines of railroad in the world.

II. The actual earnings from local business in 1867 were more than four times the annual interest requirements.

III. Two-thirds of the work is now done, and the prospects of rapid completion are favorable.

IV. The Company have liberal subsidies, which enable them to prosecute the work with great vigor.

V. The management has been exceedingly prudent and frugal.

VI. There is already a large and growing settlement on the completed and graded line.

VII. The lands promise to be of immense value, Many acres having been already sold.

VIII. Both principal and interest are explicitly made payable in gold coin.

IX. Both the aggregate amount of issue and their standing in Europe will insure for them continued activity and a high rank among standard securities.

At the above they yield nearly

NINE PER CENT. UPON THE INVESTMENT.

If classes of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing same rate of interest, with the principal also fully secured, and of realizing a profit of from one to five per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

Teas! Teas!! Teas!!!

Something New.

THE GREAT AMERICAN TEA COMPANY OUTDONE.

W. & P. BRYER,

No. 15 Broad Street,

MAKE the following proposition: They will put up and sell one thousand pounds of English Breakfast, Oolong and Hyson Teas, such as they now are selling, for one dollar per pound, and during the month of September at the establishment in question. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get the tea for nothing. By this strong method we are willing to show the regular price, so that there is to be the less. As will be seen, the tea is sold at the average at a deduction of ten per cent., or at our

WHOLESALE PRICE,

which is simply what it is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale business in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned the next day for any other kind or quality in the store. This which they intend to be done on strictly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of purchasers are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

There are not a cheap tea provided for the purpose, but a **regular standard article.** Other grades may be had after the sale in the same way. Now is the time to send in your orders.

W. & P. BRYER.
